# TOYOBO Monoclonal Antibodies

## Mouse derived monoclonal antibodies suitable for detection of biomarkers

Applications : Lateral Flow, ELISA, and others.

| Category             | Product             | Cat #   | Usage                  |
|----------------------|---------------------|---------|------------------------|
| Tumor Markers        | AFP                 | AFP-112 | Capture                |
|                      |                     | AFP-113 | Detection              |
|                      | CEA                 | CEA-103 | Detection              |
|                      |                     | CEA-104 | Capture                |
|                      | PSA                 | PSA-101 | Capture                |
|                      |                     | PSA-103 | Detection              |
|                      | β2-microglobulin    | BMG-100 | Capture                |
|                      |                     | BMG-101 | Detection              |
|                      | Hemoglobin, for FOB | HGB-103 | Capture                |
|                      |                     | HGB-105 | Detection              |
| Infectious Diseases  | Dengue NS1          | DNG-101 | Capture                |
|                      |                     | DNG-102 | Detection              |
|                      | Influenza A         | FLA-104 | Capture                |
|                      |                     | FLA-105 | Detection              |
|                      | Influenza B         | FLB-107 | Detection              |
|                      |                     | FLB-111 | Capture                |
|                      | Malaria HRP II      | MLH-101 | Detection              |
|                      |                     | MLH-108 | Capture                |
|                      | Malaria pf LDH      | MLD-130 | Capture (w/ MLD-102)   |
|                      | Malaria pv LDH      | MLD-140 | Capture (w/ MLD-103)   |
|                      | Malaria pan LDH     | MLD-101 | Capture (w/ MLD-102)   |
|                      |                     | MLD-102 | Detection              |
|                      |                     | MLD-103 | Detection              |
|                      | MERS-CoV            | MCV-100 | Capture                |
| Inflammatory Markers | CRP                 | CRP-100 | Detection (w/ CRP-101) |
|                      |                     | CRP-101 | Capture (w/ CRP-100)   |
|                      |                     | CRP-108 | Capture (w/ CRP-111)   |
|                      |                     | CRP-111 | Ditection (w/ CRP-108) |
|                      | Procalcitonin       | PCT-103 | Capture                |
|                      |                     | PCT-104 | Detection              |
| Hormones             | Cortisol            | COR-100 | Competitive            |
|                      | Estradiol           | ESR-104 | Competitive            |
|                      | Progesterone        | PGS-100 | Competitive            |
|                      | Testosterone        | TSN-107 | Competitive            |
| Fertility            | hCG                 | HCG-101 | Capture                |
|                      |                     | HCG-102 | Detection              |
|                      | LH                  | LHR-100 | Capture                |
|                      |                     | LHR-102 | Detection              |
| Immunoglobulin       | Human IgE           | IGE-100 | Detection              |

# TOYOBO Monoclonal Antibodies for Veterinary Diagnostics

Applications : Lateral Flow, ELISA, and others.

| Category | Product                      | Cat #   | Usage     |
|----------|------------------------------|---------|-----------|
| Canine   | Canine Coronavirus (CCV)     | CCV-104 | Capture   |
|          |                              | CCV-101 | Detection |
|          | Canine Parvovirus (CPV)      | CPV-102 | Detection |
|          |                              | CPV-103 | Capture   |
|          | Canine Distemper Virus (CDV) | CDV-100 | Capture   |
|          |                              | CDV-101 | Detection |

## TOYOBO Recombinant Antigens

| Product        | Cat #   | Source        |
|----------------|---------|---------------|
| Streptolysin O | SLO-301 | Microorganism |
| human CRP      | CRP-301 | Microorganism |
